ISOTOX (Cont'd)

Our attached ORTHO Lawn and Garden Book discusses on page 21 a suggested spray schedule for citrus.

We would also suggest, Mrs. Lyons, that you contact Dr. Dave Pate, Chevron Chemical Research Station, Ocoee, Florida, in regard to any other questions you might have on the use of your new formula Isotox.

In closing, Mrs. Lyons, we deeply regret your loss of confidence in our new formula Isotox. We sincerely trust Dr. Pate's report and Mr. Barling's acceptance of new formula Isotox will help restore your faith in this product.

Thank you for your interest in ORTHO and should you have any other questions relative to this matter, please do not hesitate to contact us.

Sincerely yours,
R. M. Staples
Regional Manager G & H

BOX 9
Ft. Myers, Florida

SPECIAL - BOUGAINVILLEA - MANY VARIETIES

Located at

5639 McGregor Blvd.

GOOD POSITION AVAILABLE

The firm of Thomas J. Lipton, Inc. has a good position to fill. They are looking for a man with a Bachelor of Science in Horticulture and either a recent graduate or a man with a few years experience. He must be capable of applying his agricultural training to complex and new types of horticultural work in this country. He will be expected to assist the Manager of their Experimental Station in all phases of research and development programs. Salary will, of course, be commensurate with his ability and experience, inclusive of a totally modern benefit program.

The position being created is at their Tea Research Station on Wadmalaw Island, S. C., near Charleston. It will place a man in the development stages of a new agricultural industry of potentially significant proportion. Lipton has been sufficiently encouraged by previous research results to begin serious consideration to the commercial potential of tea growing in the United States.

If you qualify and are interested you can write to Mr. John W. Sinnott, Employment Supervisor at 800 Sylvan Avenue, Englewood Cliffs, N. J. 07632, or call collect Area Code 201 - 567-8000, extension 396.
